Your advertisement regarding the position for an Entry-Level Software Engineer matches my background and experience. My qualifications include full stack development allowing me to learn both front and back end of the web site, in which I've worked thoroughly within the Code School to gain experience and expand my profile to include the following:

- application fundamentals,
- relational databases,
- front end development essentials,
- and full stack MVC web development.

As a recent graduate, I have a high-energy, motivated, and sharp character to compliment my growing skill set.

It would be a pleasure to share in the vision and mission of CodeCrew while adding to the value and growth of your company. I invite the opportunity to further discussing my qualifications in person.

Sincerely,

Mareco Nabors
